

Personal Numeracy Assessment

Tick the box that best applies to the way you feel about these numeracy skills.

Numeracy Skill	No problem	Rusty	What is this?
Place Value			
Calculating with whole numbers			
Calculating with decimals			
Calculating with fractions			
Understanding different methods to calculate			
Use of numerical language			
Mental arithmetic <ul style="list-style-type: none"> • Counting on • Bridging • Rounding 			
Vocabulary of fractions and decimals E.g. denominator, unit fraction			
Approximation and estimation			
Calculator including memory button			
Use of metric measures			
Use of imperial units			
Shape vocabulary e.g. angles vertices bisect			
Calculating area and volume			
Reading Scales e.g. kitchen scales			
Reading Graphs (bar, pie, line and pictogram)			
Collecting data			
Mean, mode, median and range			
Discrete and continuous data			
How to check for misleading graphs			
Concepts of probability			
Probability trees, diagrams and tables
