

As a group read this assignment about the theories and principles of learning and decide on the headings and sub-headings that you will need in your report.

1203. Report (1750 words)

Write a report which:

- Explains how theories and principles of learning underpin your planning and delivery, and which theories are most relevant to your teaching.
- Discusses how you apply theories of communication in your practical teaching and evaluates your own personal communication skills with your learners.
- Discusses some of the factors which affect learning, their potential impact on learner achievement (including for example, barriers to learning, social and economic disadvantage, cultural background, LLN and disability).
- Evaluates how effectively you manage the behaviour of your learners.
- Explains how you apply a range of theories and principles to promote equality and diversity and support inclusive learning through the teaching of your specialist area.
